PROFESSIONAL SUMMARY

Marine Engineer and International Business Engineering graduate with **5+ years of project management and engineering coordination experience** in ship construction and international operations. Proven track record leading cross-functional teams of 30+ across **multi-million-dollar projects (\$1M–\$10M)**, managing full project lifecycle: scheduling, procurement, budgeting, quality assurance, and stakeholder coordination. Combines deep technical expertise with business strategy, data analysis, and cross-cultural communication. Seeking a **Project Manager, PMO Analyst, or Project Engineer** role in maritime, offshore energy, logistics, or international operations.

EXPERIENCE

Project Engineer

Full-Time

Kabar Services Co., Ltd — Yangon, Myanmar

Oct 2018 – Apr 2021

- Led end-to-end **project management** of vessel construction projects valued at **\$1M–\$10M**, coordinating 30+ contractors across engineering, procurement, and site operations
- Developed and maintained multi-phase **project schedules**, overseeing **100+ technical drawings** and documentation workflows to ensure on-time milestone delivery
- Concurrently held **Procurement Manager** and **Project Accountant** responsibilities: vendor negotiations, purchase orders, budget analysis, and cost reduction across multiple active projects
- Implemented **quality assurance** and compliance checks at every project phase, reducing rework and supporting repeat client engagements
- Managed **stakeholder coordination** and labor-management relations across teams of 70+ workers throughout full construction cycles

Assistant Engineer / Team Leader

Full-Time

C. Than and Associates Marine Design Firm — Yangon, Myanmar

Apr 2016 – Aug 2018

- Promoted to **Team Leader** of the Quality Control team post-internship; supervised 5 engineers on marine design and construction inspection projects
- Executed structural and hydrostatic **engineering calculations** using **AutoCAD, Maxsurf, and STAAD Pro** to deliver classification-compliant ship designs
- Designed and implemented a streamlined **QC reporting and monitoring system**, improving issue detection speed and documentation accuracy
- Conducted design drawing checks and ship structure inspections in accordance with **classification society regulations**

Personalized Internet Assessor

Part-Time

TELUS Digital Co., Ltd — Remote

Jun 2024 – Present

- Evaluated search result quality across relevance, accuracy, tone, and cultural appropriateness using structured **Page Quality and Needs Met frameworks**
- Applied cross-cultural and multilingual judgment to assess content across diverse regional contexts; maintained consistently high **accuracy scores**

Founder & Operator

Entrepreneurship

ShopAce Online Retail — Yangon, Myanmar

Aug 2020 – Dec 2021

- Founded and managed a full e-commerce operation: supplier sourcing, pricing strategy, logistics coordination, and end-to-end **operations management**
- Applied **data analytics** for customer segmentation and personalized outreach; negotiated terms with 3+ vendors
